

keypad

En-Pad type 3

En-Pad type 3

The new En-Pad has been designed to meet the requirements for destination control type lifts with keypads and is ideal for apartment buildings, offices, hotels and many other applications. The keypad fully meets the requirements of EN81-70, having contrast between the legend and the key. The En-Pad has a very low profile and can be easily incorporated into landing fixtures. It also meets the category 2 requirements of vandal resistant lift code EN81-71.

key features

- Numerical keys are stainless steel with black moulded through tactile legends
- Star key is stainless steel with green moulded through tactile legend
- Minus key is stainless steel with red moulded through tactile legend
- Wheelchair key is stainless steel with blue moulded through tactile opal legend
- Satin black die-cast body
- High contrast between legend, keys and body
- Vandal resistant
